Slides:

Agenda

- Power BI REST APIs
- The Challenges
- Custom Connector
- Demo
- Next Steps

Power BI REST APIs

- Representational State Transfer (REST)
- Application Programming Interfaces (APIs)

The Middleman of Information

Power BI REST APIs (cont.)

- Datasets
 - Data Sources
 - Refresh History
 - Refresh Schedule
 - Execute Queries
- Reports
 - Connects to Datasets
 - Pages (Tabs)
- Workspaces
 - User Access
- Pipelines
 - Deployment History
 - User Access
- Apps

The Challenges

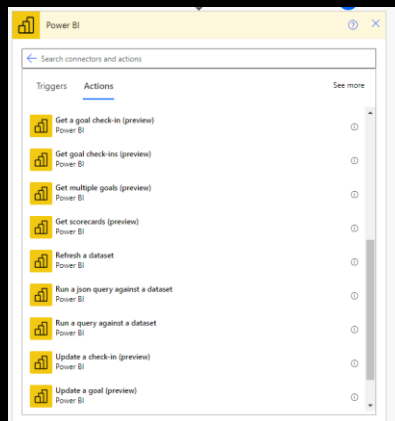

- **PowerShell**
- **JavaScript**
- **.NET**
- **Python**
- **Power Automate**

Everyone Else

Power BI Users

The Challenges (cont.)

As a workspace administrator I'd like to:

Inventory the workspaces I manage

Monitor for issues

Maintain a comprehensive refresh schedule

Introducing...

Power Query Connector to PBI REST API

Commercial Version

GCC Version

Demo

Next Steps

1. Setup the connector
2. Use the template
3. Setup Gateway

Questions?
