Slides:

Agenda

- Power BI REST APIs
- The Challenges
- Custom Connector
- Demo
- Next Steps

Power BI REST APIs

- Representational State Transfer (REST)
- Application Programming Interfaces (APIs)

The Middleman of Information

Power BI REST APIs (cont.)

- Datasets
 - Data Sources
 - Refresh History
 - Refresh Schedule
 - Execute Queries
- Reports
 - Connects to Datasets
 - Pages (Tabs)
- Workspaces
 - User Access
- Pipelines
 - Deployment History
 - User Access
- Apps

The Challenges

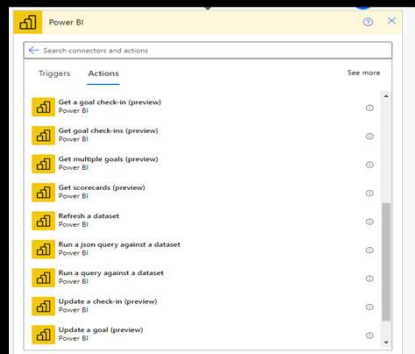

- PowerShell
- JavaScript
- .NET
- Python
- Power Automate

Everyone Else

Power BI Users

The Challenges (cont.)

As a workspace administrator I'd like to:

Inventory the workspaces I manage

Monitor for issues

Maintain a comprehensive refresh schedule

Introducing...

Power Query Connector to PBI REST API

Commercial Version

GCC Version

Demo

Next Steps

1. Setup the connector
2. Use the template
3. Setup Gateway

Questions?

Power BI Ideas

1. API for Get Refresh Schedule of Dataflows
2. REST API Cmdlet for getting all outstanding Pending Access requests
3. Power BI REST API connector for Power BI Desktop
