Thank You To Our Sponsors For Making SQL Saturday Possible!

KEEP YOUR TAX DOLLARS LOCAL!

The PEACH Education Tax Credit lets you redirect your Georgia state income tax dollars directly to Innovation Academy — at no additional cost to you. This is a 100% dollar-for-dollar tax credit (not a deduction).

WHY THIS MATTERS

Instead of sending your tax dollars to the state's general fund, you can directly support:

- Mentorships & internships
- STEM and innovation programs
- Curriculum development
- Teacher professional growth
- Real-world student experiences

ELIGIBILITY LIMITS

- **Single Filer:** UP TO \$2,500
- **Filing Jointly:** Up To \$5,000
- **LLC Member or Pass Through Entity:** Up to \$25,000
- **C or S Corporation:** up to 75% of annual Georgia income tax liability

Same Taxes. Greater Impact.

STEP 1: APPLY

- Apply for the PEACH Tax Credit
- Select "FCS Innovation Academy"
- Receive approval within approximately 10 days

STEP 2: DONATE

- Follow the instructions in your approval letter
- Submit your donation (online or by mail)
- Must be completed within 60 days of approval

STEP 3: CLAIM

- File Form IT-QED-TP2 with your Georgia tax return
- Receive your full dollar-for-dollar state tax credit

The Before Times (cont.)

CAN YOU SPOT THE DIFFERENCES?

You can't **easily** tell what changed

+

I hope something I changed didn't break something!

Let's test just to be sure

Power BI Developer Mode!

Rui Romano
Principal Program Manager

June 15, 2023

Power BI customers demand enterprise BI solutions that scale to all users across the largest organizations. This depends on enabling team collaboration and automation of deployments across development, test, and production environments to meet the needs of mission-critical BI systems. We are thrilled to announce the public preview of **Power BI Desktop Developer Mode**, taking advantage of Microsoft's deep heritage in enterprise BI, and bringing Pro BI developer experiences right into Power BI Desktop.

As the first feature of Developer Mode, Power BI Desktop now lets you save your work as a **Power BI Project (PBIP)**. When saving as a project, report and dataset artifact definitions are saved as individual plain text files in a simple, intuitive folder structure.

Foundation

Power BI Project (PBIP)

- A file format with many formats
- Semantic Model/Dataset
 - Tabular Model Definition Language (TMDL)
- Power BI Report
 - Power BI Enhanced Report Format (PBIR)
- Others
 - .pbip
 - .platform
 - .gitignore

Accelerators

Acceleration Tools

- DAX Query View
- TMDL View

Orchestrators

Orchestration Tools

- Git Integration
- Fabric APIs/CLI

Extenders

Extensions

- GitHub Copilot
- MCP
 - Microsoft
 - Third-Party

GitHub Copilot Prompt

You are an assistant to help Power Query developers comment their code. Please update each line of code by performing the following:

- 1) Insert a comment above the code explaining what that piece of code is doing.
- 2) Do not start the comment with the word Step or a number
- 3) Do not copy code into the comment.
- 4) Keep the comments to a maximum of 225 characters.

Please also update each line of code by performing the following:

- 1) Update the variable name explaining what that piece of code is doing.
- 2) The variable name should always start with a verb in the past tense.
- 3) The variable name should have spaces between words.
- 4) Please keep the variable to a maximum of 50 characters.
- 5) The variable name should be wrapped in double quotes and preceded by the '#'
